IN THEATERS

enchanted

release: 11.11.07

When an evil witch banishes the beautiful animated princess Giselle from her world, she ends up in the real New York, where talking animals and spontaneous musical numbers aren't normal. Giselle is followed into New York by her bumbling animated prince charming and the evil witch. Giselle meets a real life charmer in lawyer Robert, who tries to help sort out the chaos as two worlds collide in the middle of the Big Apple.

BUENA VISTA

BEE MOVIE release: 11.2.07

Recent college graduate and flying insect, Barry B. Benson doesn't want to be like everyone else and make honey for a living. So on his first time out of the hive, he breaks the rules and talks to a human. Vanessa the florist reveals to Barry that humans have been eating bee honey for centuries. Spurred into action by this shocking revelation, Barry decides to take legal action against humanity for stealing their precious bee honey.

MR. MAGORIUM'S WONDER EMPORIUM release: 11.16.07

At 243 years-old, magical toy store owner Mr. Magorium is ready for retirement. He decides to leave his remarkable store in the hands of young manager, Molly, but before he can leave, the pair have to deal with a pesky accountant who refuses to believe in the magic. "Mr. Magorium's Wonder Emporium" has a lot in common with "Willy Wonka and the Chocolate Factory." They both leave their stores to young heirs, both have amazing magical facilities, and they both have really weird hair.

VIDEO GAMES

Not only does the fall bring football, holidays and chilly weather, it also brings the biggest video game releases of the year. You probably already know about the big sequels like Halo 3, Call of Duty 4, and Mario Galaxy but what about the new franchises? Add some freshness to your gaming library with these original titles that are sure to be holiday hits.

WARNER BROS.

FRED CLAUS

release: 11.9.07

After bailing him out of jail, Santa employs his mischievous older brother Fred (Vince Vaughn) at his North Pole workshop. Being the exact opposite of his jolly sibling, Fred causes all kinds of trouble at the workshop and nearly ruins Christmas for the whole world. Fred Claus looks to be the funniest thing to hit the North Pole since Will Ferrell's Buddy the Elf.

BUENA VISTA

THE GAME PLAN

release: 9.28.07

In a time-honored tradition started by Hulk Hogan in "Mr. Nanny," another former wrestler/action star hits the big screen as an unlikely parent. Dwayne "The Rock" Johnson plays pro football star Joe Kingman. Joe is a tough athlete living the good life in his bachelor pad. When a girl shows up claiming to be his daughter, it turns his life upside down. Despite his action movie pedigree, the Rock looks to be faring well in this family-friendly comedy.

Uncharted: Drake's Fortune

PLAYSTATION 3

Uncharted is an Indiana Jones style adventure following Nathan Drake as he searches for the lost city of El Dorado. Nathan believes he is a descendent of the famous explorer/pirate Sir Francis Drake, and he is on a hunt to claim what is rightfully his. Television host Elena, who is hoping to capture the discovery on film, accompanies him to the jungle. Unfortunately, a group of mercenaries has beaten Nathan to the punch, making his conquest a bit more dangerous. With its lush jungles, ancient ruins, and exciting battles, Uncharted looks to be the best thing since the original Tomb Raider.

NAUGHTY DOG

KONAMI

Dewy's Adventure

Wii

Evil Don Hedron is corrupting forest water supplies and it's up to Dewy to stop him. Dewy isn't the usual gun-toting action hero, instead he's a little drop of water. By controlling the environment around him with a tilt of the Wii remote, Dewy can get through obstacles and overcome enemies. Some puzzles will necessitate a change in temperature, which will make Dewy change into an ice cube or a cloud of steam. Dewy's Adventure will have players twisting their remotes and scratching their heads as they solve puzzles and defeat enemies on their way to saving the forest.

BIOWARE

Mass Effect

XBOX 360

In Mass Effect, you play as Commander Shepherd, the only human in an elite peacekeeping organization known as Specter. Humanity is a relatively new species in intergalactic space and dealing with the inter-species tension is a constant reminder for Shepherd. Explore the enormous universe of Mass Effect with Shepherd and his crew as they try to hunt down a rogue Specter and banish a threatening race of intelligent robots. With its innovative dialog system that allows players to react to conversations based on emotion, "Mass Effect" creates an epic cinematic experience like no other.
